How to search (Simple)

Start your search using either the simple search box that appears on each page or go to the advanced search page (link on upper right of page) to construct a more targeted search.

Simple Search

- Enter term(s) in the search box. Use quotations to search for a phrase
- If desired, use Boolean operators (AND, OR, NOT) (case sensitive) to combine terms in different ways.
- Select either Content, Title, Author, or Publisher from the dropdown list

Advance Search

Content - searches in all titles, citations, journal articles, book chapters, abstracts/summaries

Title - searches in the title of a journal article or the title of a book

Author - searches for content by a particular author

Publisher - searches for all books and journals by a particular publisher.

Advance Search

सिद्धिमूलं प्रबन्धनम्
भा. प्र. सं. इन्दौर
IIM INDORE

Advanced Search

- Enter term(s) in the search box(es). Use quotations to search for a phrase.
- Select either Content, Title, Author, or Publisher. (see above for descriptions)
- Select All, Any or None

Continue

Example retrieves (ALL) articles with Braves and (ANY) with either Milwaukee or Atlanta or both

All - automatically combines terms (automatic AND) to search within Content, Title, Author, or Publisher.
Any – automatically inserts OR between the search terms.
None - excludes content with any term(s) typed in the search box following None.

Use Facets to Limit Search Results

- Use the facets on the left side of the search results page to refine your results.
- The number after each facet is the number of books, journals, journal articles or journal reviews relative to your search within that particular option. Facets include:

Limiting Searches

Content Type

The number of journal articles (articles and reviews) and books with content relevant to your search term.
Content based on what an institution has access to.
Check boxes to include/exclude Reviews.

Research Area

Project MUSE organizes content into subject groupings called Research Areas. Check the box next to the Research Area from which you would like to see search results.

Author

Select an author to view only content by that author within your search results.

Publisher

Select a publisher to view only content by that publisher within your search results.

Journal Name

Select a journal to view only content in that journal within your search results.

Language

Select a language to view only content in that language within your search results.

Year

Select a date range or just one year to view only content published during that period.

Ex.

1996 and 2004 will display only content published between 1996 and 2004. 2012 and 2012 will display only content published in 2012.

Save Search

Save Your Search

- All searches can be saved using the Bookmark or Favorites feature on your browser.
- On the search results page, click the Bookmark or Favorites option to save the search to a folder of your designation.
- Searches will rerun when the URL is clicked in your Bookmarks or Favorites.
- The URL for the search results can also be emailed to yourself or to others.
